

Eldorado Stable Amenity

Manure and the Gardener - A Match made in Heaven

"Matching barn owners who have clean manure with gardeners who want compost!"

- Contact the chair of the ECIA Stable Committee, Amelia Adair, ameliaadair@msn.com, to participate in our ECIA Gardener/Barn Owner matchmaking program, which makes it easy to get manure for compost how and when you want it.
- We connect local gardeners needing manure to barn owners willing to muck into containers provided by the gardener. Gardeners coordinate with individual barn owners to arrange to pick up their containers in front of that barn. Manure must be picked up at least weekly.
- Any ECIA resident may also collect manure directly out of the dumpsters at any time. You are welcome at the Stables! Just remember to respect posted Stable rules including speed limits and staying out of paddocks.
- The Stable gates open and close automatically during daylight hours without a code. Pull forward past the keypad onto the sensor and wait.
- Thank you for sharing and using this renewable resource!
